Classes require 4 entries at minimum. Event Coordinators will decide classes and their order. Classes are determined by tire size.

Vehicles must have a secure place to hook a chain.

Drivers must remain in the mud pit for their whole run. (No driving along the sides of the pit).

Scoring will be based on distance. Drivers making it through the pit will be scored based on time.

Distance is measured from center of front hub.

Drivers must obey flags. Green flags will mark the start of a run and a red flag will mark the end.

Timers will run from the waving of green flag until the waving of red flag for time-based scores.

A black flag means the run is disqualified.

A run will continue until the vehicle no longer makes forward progress.

Multiple drivers may compete in the same vehicle. Each driver must complete a registration form and submit an entry fee. (Inform Event Coordinators beforehand so accommodations can be made.)

Tires may be changed to compete in multiple classes, entry fee must be paid for each class before competing.

Judges will determine the safety of each run. A run may be terminated if determined safety is a risk.
